

Red Deer Injury Lawyer

Red Deer Injury Lawyer - Our firm's Class Action lawyers are knowledgeable and experienced within both advancing and defending class actions. The fairly plaintiff-friendly nature of class action legislation has caused the beginning of class procedures which are national in scope. We have a well-developed network of relationships along with class action counsel in various provinces, allowing us to mount a coordinated approach in cases where parallel proceedings have been initiated in other jurisdictions.

Usually, class actions tend to create more financial exposure and a higher level of public scrutiny compared to other kinds of proceedings. Our teams of lawyers have been involved within several class action suits, like for instance securities, taxation, insurance, and product liability claims. Our clients benefit from our extensive resources and depth of skill.
