

Impaired Driving Red Deer

Impaired Driving Red Deer - Patents are often the most valuable assets which a company can have. It is very important that the patent portfolio is maintained and secured in order to make certain that the business can continue to expand and even succeed.

We have amongst the biggest and most well respected patent teams with broad experience in procuring patents and protecting them. Additionally, we can assist our clients in leveraging patent matters with efficiency and skill.

Our team is comprised of various professionals, including patent agents, technical consultants and patent lawyers. Some of our technical consultants even have a Ph.D in either an engineering or scientific discipline. Some examples of the fields in which we have skill are chemical, aerospace, civil, biochemical, electrical, computer science, metallurgy and material science, industrial, mechanical, biochemistry, biomechanics, biotechnology, food science, chemistry, endocrinology, genetics, life sciences, immunology, microbiology, neuropsychology, molecular/cellular biology, neurophysiology, pharmacology, organic chemistry, physics, toxicology, and physiology.

The combination of acute business acumen together with our wide variety of technical skills enables us to provide a comprehensive understanding of various technical complexities. Our experience and expertise allows our clients to achieve optimal patent asset value. We are there to provide beneficial suggestion and assistance about the negotiation of technology transfer and licensing agreements as well as the enforcement of intellectual property rights.
