

Criminal Law Firms in Red Deer

Criminal Law Firms in Red Deer - Our Intellectual Property & Technology Practice provides various services to clients regarding all aspects of intellectual property law. This comprises licensing, industrial designs, copyrights, trade-marks, software, confidentiality, trade secrets, biotechnology, and different technology problems. We are proactive in our approach to providing timely solutions to clients' problems.

Our business clients are passionate about their innovative services and products and offering the creative energy required in order to be successful. We handle clients from both the public and private sectors. They come from diverse fields like the music, software, film, manufacturing, travel, and service trades. Our firm offers sophisticated legal tools and services meant to protect and secure our clients' products and services. When clients have international concerns, we work extensively with foreign legal counsel to provide solutions.

Our practice seeks to apply innovative methods to solving technology and business issues. We keep up to date with trends in emerging technology and media, alert to any likely legal effect on our clients. To ensure a full range of legal services are obtainable to our clients, our lawyers form client teams together with other lawyers, when appropriate.

Copyright

We can offer professional legal suggestion in the areas of international copyright conventions and copyright legislation. The holders of copyright would receive advice on enforcement and infringement. We likewise review and draft license arrangements, and help with the registration and protection of clients' copyright both domestically and globally.

Trade-marks

As registered Trade-mark Agents, we prepare and prosecute trade-mark applications, carry out name searches and trade-mark, represent clients in trade-mark litigation, obtain pre-clearance and clearance both nationally and worldwide, and carry out trade-mark licensing. We draw upon established relationships with a broad network of trade-mark agents in other jurisdictions in order to assist clients involved in mark arrangements and globalized name. This ensures smooth delivery on an inter-jurisdictional basis. Clients receive help in the enforcement of trade-mark rights and the resolution of disputes in the administrative forums and courts.

Technology

We have clients involved in commercializing and developing new software and various innovative services and products. Our services help both established and emerging and new companies and organizations in the following fields: biotechnology, pharmaceutical, nutraceutical, hospitals; video game publishing and development; and software design and publishing. Our technology experts advise clients on problems like for instance e-business and the internet, the use of "open source" code, technology transfers, system acquisitions, licensing, technology aspects of commercial transactions and mergers, distribution agreements, joint ventures, corporate financing and structure, and strategic alliances.

Patents

Our Practice members advise clients concerning contractual matters connected to patents, such as the licensing and acquisition of patent rights.

Industrial Design

We have design experts to help our clients in the prosecution and preparation of industrial design registrations within Canada. Appropriate referrals to U.S. agents in connection with design patents within the United States could likewise be provided.

Litigation

We act for our clients in litigation relating to problems such as disputes involving licensing, confidentiality agreement, industrial design, copyright, passing off, trade-marks, patents and trade secrets.
